

REMARKS / ARGUMENTS

The specification was amended to amend the title and to update the priority claim of the present application.

Upon entry of the present amendments, claims 1-26 and 31 are pending. Claims 24-29 were renumbered claims 26-31 to correct an inadvertent error in the numbering of the original claims. Newly renumbered claims 27-30 are canceled by the present amendment. The foregoing amendments are made without any intention to abandon the subject matter of the claims as filed, but with the intention that claims of the same, lesser or greater scope may be pursued in the present application or in a continuation, continuation-in-part or divisional application. Applicants believe that the present amendment does not add new matter.

CONCLUSION

On the basis of the foregoing amendments, Applicants respectfully submit that the pending claim is in condition for allowance. If there are any questions regarding these amendments and remarks, the Examiner is encouraged to contact the undersigned at the telephone number provided below.
